WHAT IS KAHOOT??

Kahoot! is a game-based learning and trivia platform used in a multitude of settings - in K-12 and university classrooms, corporate offices, social settings, and major sporting and cultural events. You can find >20 million publicly available games on the platform.

HALF OF U.S. TEACHERS USE KAHOOT!

The majority collaborate on Kahoot! games with colleagues at their schools.

Kahoot! asked teachers how they collaborate with their colleagues on learning games on the platform

Kahoot's game like features and easy-to-use format have helped turn it into a classroom phenomenon. Kahooting is an actual word now. **-The New York Times**

HOW MUCH DOES IT COST?

Kahoot! is committed to keep its free version available for individual K-12 teachers and students.

Knowing that budgets are a challenge, the company aimed to make the price for Kahoot! Pro for schools as affordable as possible.

Kahootl for schools plans start from **\$1 a** teacher per month for K-12 schools.

This low price is subsidized by the 1000s of companies already paying for Kahoot!

Kahoot! PLUS From \$1 per teacher per month

Kahoot! PRO From \$3 per teacher per month

This is something I could see my department using as we could create and share Kahoots across our curriculum and see real-time data.

K!

WHAT'S IN IT FOR SCHOOL ADMINS?

Get admins engaged in your teaching

Give your school's admins **visibility into content creation and game data** by adding them to your school's team space.

Collaborate and **create a content bank** of kahoots that colleagues and future teachers can find quality kahoots.

Team space makes it easy for admins and teachers to find relevant content.

TEACHER FEEDBACK...

"My students enjoy using Kahoot and I find that I can assess their knowledge better because everyone is engaged. With the new features I would probably use it more often and I am sure students would benefit even more. It's a win-win for everyone"

"[The pricing] is affordable for

teachers or principals to pay. Our budget is very tight and we're unlikely to get approval for larger expenditures" "Most subscriptions for EdTech are at a per student cost. This is a very low cost for something a few of us love to use. The proposed premium features would allow us to **customize our Kahoots to better meet the needs of our students,** make them more engaging, and encourage students to get more creative."

"Kahoot offers the level of engagement needed for students of this era. It would be **well worth the small investment".** "We love Kahoot. **We are data driven** and it's a great tool for teacher and makes learning fun for students. **It's a win-win**"

"I am very interested in data driven instruction. Sounds like this would provide us with another avenue to steer our children in the direction they need."
