

Training

Deliver training that drives results with Kahoot! 360

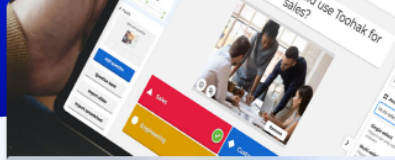

Kahoot! 360

Static training often fails to engage employees, leading to lower completion rates and knowledge retention. Millions of professionals use Kahoot! 360 to boost learning outcomes with interactive, bite-sized training that engages audiences and checks understanding.

Safety and compliance training

Replace long lectures with interactive scenario questions to boost critical safety recall.

Product and sales training

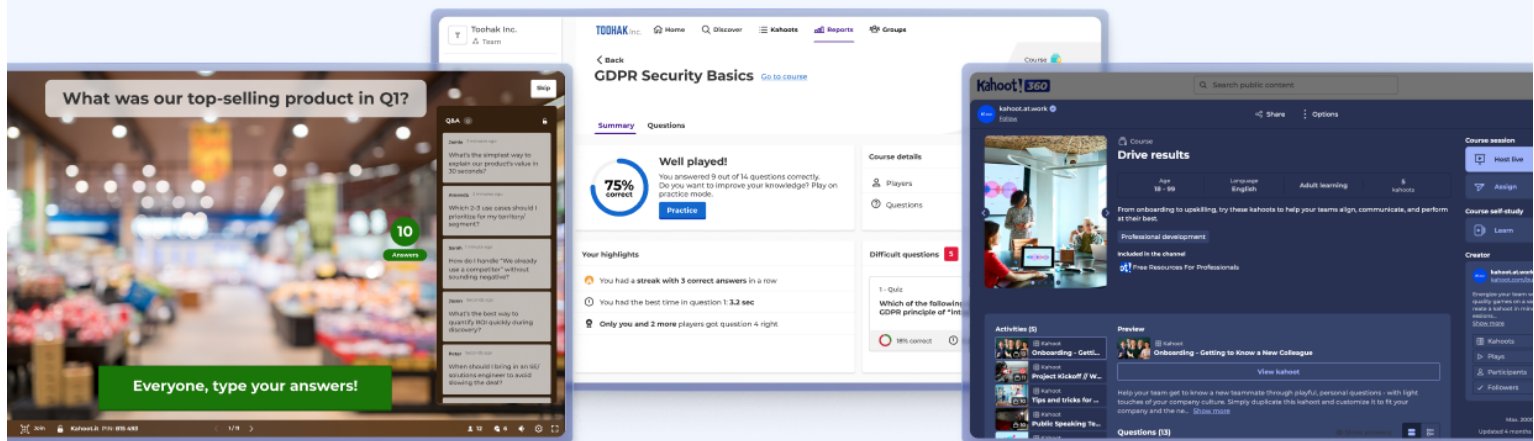

Build sales pitch confidence with repeated interactive checks on new features and specs.

Leadership workshops

Use reflection questions and collaborative brainstorming tasks during manager training.

How to master trainings with Kahoot! 360

Build active skills with interactive questions

Move beyond click-through modules with live, game-based scenarios that drive change.

Verify performance with reports

Target your coaching and verify performance using detailed individual and team data.

Design flexible learning with courses

Combine instructor-led and self-paced sessions into one cohesive learning journey.

TRUSTED BY LEADING BRANDS WORLDWIDE

"We've seen a significant decrease in our final exam failure rates. They've gone from 22.5% in the first half of last year to the second half of last year down to 4.5%, so an 18% decrease in final exam failure rates, which Kahoot! has definitely played a part in."

How Virgin Atlantic boosted cabin crew compliance exam pass rates by 18% with Kahoot! 360

Kahoot! 360

As one of the most heavily regulated industries, aviation compliance training is more than a tick-box exercise. Cabin crew training is a core safety requirement that directly impacts the passengers, airline, and operational success.

The impact of engaging compliance training with Kahoot! 360

By transforming compliance training into an interactive learning experience, Virgin Atlantic boosted pass rates from 77.5% to 95.5%.

This shows that their cabin crew are not just completing mandatory training, they are mastering critical procedures and identifying risk early, with **higher pass rates confirming real understanding**, giving crews the confidence to act when it counts.

Key wins with Kahoot! 360 at Virgin Atlantic

Virgin Atlantic improved exam success, knowledge retention, and cabin crew engagement, particularly among Gen Z employees with Kahoot! 360 as a key tool in their training strategy.

18%

increase in cabin crew compliance exam pass rates in six months.

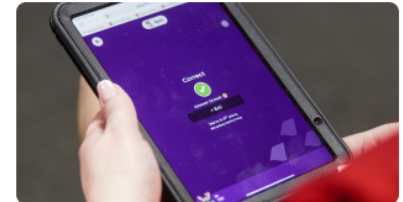

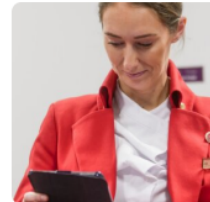

5X

improvement of training knowledge retention in six months.

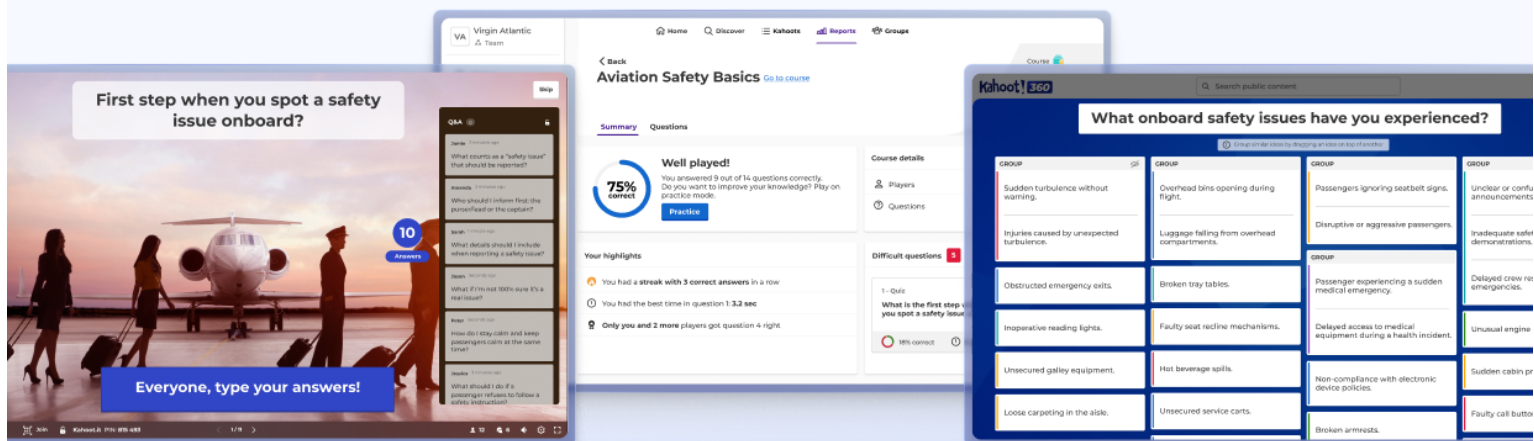

Improving performance in high-stakes aviation training

Aviation compliance training is intensive, compressed, and safety-critical. Cabin crew must retain large volumes of information across multi-week and refresher programs. Traditional delivery methods often risk disengagement, which negatively affects knowledge retention and employee confidence on the job.

By embedding **Kahoot! 360** into their training strategy, Virgin Atlantic shifted from passive instruction to interactive participation, resulting in a dramatic improvement in cabin crew compliance, safety, and service exam performance.

How Virgin Atlantic drives performance with interactive training

Reinforce critical safety details

Interactive questions prompt active recall, and reinforce safety, medical, and operational protocols to ensure critical information is embedded.

Improve recall under exam conditions

By reinforcing key concepts in an engaging format, interactive sessions better prepare delegates for final compliance exams.

Encourage peer dialogue and reflection

Between questions, delegates share onboard experiences and perspectives, turning compliance into real-world understanding.

"Kahoot! is not just simply asking one question after another. Between each question, we can ask for their opinions and engage more with them to really bring the session to life."

Katie Bailey
Crew Training Specialist at Virgin Atlantic

Driving results through
interactive and engaging
training experiences

Virgin Atlantic's results show that **engagement is not an add-on, it's a performance driver.**

With Kahoot! 360, Virgin Atlantic dramatically increased the effectiveness of their training, achieving real understanding that translates to more confident cabin crew.

By rethinking cabin crew training with Kahoot! 360, Virgin Atlantic has:

- **Boosted cabin crew performance** on compliance exams from 77.5% to 95.5%.
- **Improved knowledge retention** on safety, service, and aircraft procedures.
- **Aligned training** with employee learning preferences, making sessions more memorable.

"At Virgin Atlantic, safety is our top priority. What truly sets us apart is our people. We are committed to investing in our team, and Kahoot! has proven to be a valuable tool in our training strategy."
