HOW MUCH DOES IT COST?

Kahoot! is committed to keep its free version available for individual K-12 teachers and students.

Knowing that budgets are a challenge, the company aimed to make the price for Kahoot! Pro for schools as affordable as possible.

Kahoot! Pro is offered for **\$1 a teacher per month** for K-12 schools and \$5 a teacher per month for higher education.

This low price is subsidized by the 1000s of companies already paying for Kahoot!

This is something I could see my department using as we could create and share Kahoots across our curriculum and see real-time data.

\$1 is very affordable for teachers or principals to pay. Our budget is very tight and we're unlikely to get approval for larger expenditures

TEACHER FEEDBACK...

“My students enjoy using Kahoot and I find that I can assess their knowledge better because everyone is engaged. With the new features **I would probably use it more often** and I am sure students would benefit even more. It's a win-win for everyone”

“\$1 is very affordable for teachers or principals to pay. Our budget is very tight and we're unlikely to get approval for larger expenditures”

“Most subscriptions for EdTech are at a per student cost. This is a very low cost for something a few of us love to use. The proposed premium features would allow us to **customize our Kahoots to better meet the needs of our students,** make them more engaging, and encourage students to get more creative.”

“Kahoot offers the level of engagement needed for students of this era. It would be **well worth the small investment”.**

“We love Kahoot. **We are data driven** and it's a great tool for teacher and makes learning fun for students. **It's a win-win”**

“I am **very interested in data driven instruction.** Sounds like this would provide us with another avenue to steer our children in the direction they need.”
